Q22020 market review

The second quarter began with our region fully entrenched in a new normal amidst the COVID-19 pandemic and ended with a strong seller's market and historic low interest rates. Our region's typical peak season was delayed with May picking up momentum like a typical March, and June going off the charts in the way we would typically see in April.

There was not a single Mercer Island home sale below \$1 M in Q2. The bulk of Island sales were in the \$1.2 M to \$2 M price point (40 of 63 sales) and there were only four sales above \$3 M.

The Island's record shortage of homes for sale in Q2 continues to create a bottleneck of buyer activity with multiple offers common in the \$1.2 M to \$2 M segment of the market. Buyers are winning the competition by pre-inspecting and waiving typical contingencies more so that drastically escalating offer prices.

52% of all homes, and 8% of homes priced above two million dollars, sold for at or above their listed price. The highest Mercer Island sale was a \$4.185 million, 2002-built Eastside waterfront home. Two "as-is" midisland homes tied for the lowest sale of at \$1,000,000.
